PROJECT SUN STREAK

WARNING NOTICE: SENSITIVE INTELLIGENCE SOURCES AND METHODS INVOLVED

-----  
PROJECT NUMBER: 8801                      SESSION NUMBER: 003  
DATE OF SESSION: 17 Feb 88              DATE OF REPORT: 21 Mar 88  
START: 1114                                  END: 1214  
METHODOLOGY: Solo (CRV)                  VIEWER IDENTIFIER: 018  
-----

1. (S/NF/SK) MISSION: Describe the contents of the target Building. Describe function and intended use of the contents of this building.
2. (S/NF/SK) VIEWER TASKING: Provide an overview of the target area. Describe the exterior and the interior of the target structure, to include its contents.
3. (S/NF/SK) COMMENTS: The viewer was given only the coordinate and the tasking. The viewer correctly described a multi-story, flat-topped building with straight sides. He describes the interior as cluttered and full of trash.

## memorandum

DATE: 17 Februray, 1988

REPLY TO  
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/SS)

SG1J

TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018  
Session date: 17 FEB 88  
Mode of operation: SOLO

2. (S-SS) TASKING: Describe the target area, target structure (both outside and inside), and any contents of the structure which are of significant intel interest. If any such contents exist, describe their functions and intended uses.

3. (S-SS) SESSION CONDITIONS: PI: none AV: none.

4. (S-SS) RESULTS:

a. TARGET AREA: Site location appears to be nearly flat, open area with short, "junky" looking structures, near a major land/water interface. The weather of the area at the time of viewing was perceived as being clear, sunny and cool. There were several perceptions of lots of very dark skinned people in the area.

b. TARGET STRUCTURE:

1) Outside: The specific target structure appears to be a semi-tall (4-5 stories) stone or brick building (see sketch, page 6). It shows signs of age. It is flat topped and straight sided. There are other structures around which are of equal or shorter height, but no taller structures were perceived.

2) Inside: There were many overpowering impressions inside the structure of a totally junky and cluttered interior. everything was broken and lying around the room, on the floor, on furniture, etc. It appeared to be part rubble, but mostly trash and broken things. (AOL: looks like the ceiling fell in on an old attic some old recluse has

lived in for years.)

c. CONTENTS, FUNCTIONS AND USES: There were strong impressions of lots of trash, litter, and stored things. Closer inspection led to at least one box which has something packed inside it in foam. This "thing" which is packed inside it is in disassembled condition, and is packed in parts throughout the foam (see sketch, page 12). The smaller parts are all black and shiny, and there seem to be some larger parts which are dark brown. At least some of the small parts seem to function optically. These perceptions began to drive the concept of rifles and weapons, as well as a feeling of certainty about the concept. I was not able to overcome this drive, so ended session.
